

Join the Spring 2026

AERIAL FLIGHT PROGRAM

East King County and South Snohomish County

Opportunity open to utility districts, cities, conservation districts and other entities within or adjoining the project area.

Multiple Benefits:

- **Cost sharing** with other agencies for shared map tiles
- **Cost sharing** administrative costs
- **Existing contract** (avoid new contract procurement)
- **Direct ownership** of all data (no subscription)
- Bi-annual, **spring, leaf-off flights** (2026, 2028, 2030, 2032, 2034)
- **0.25' orthophotography imagery** base product
- Opportunity to **QC product** before final delivery
- Additional **custom products** available:
 - Lidar, terrain, contours
 - Feature and/or impervious mapping
 - Summer flights for forest inventory (4-band RGB-Nir)
 - Enlargements for public display
